**Course 3** (choose one):

- OTI 2045 Machinery & Machine Guarding Standards, OR
- OTI 2250 Principals of Ergonomics, OR
- OTI 3095 Electrical Standards

**Courses 4, 5, and 6:** 3 Elective Courses (1 day or longer)

To be awarded a University of Alabama certificate, participants must complete either the OSHA 510 or 511 (or 502/503 or 500/501), and 5 electives. At least three (3) of the courses, including the final two (2), must be completed through the UA OTI Education Center.

OSHA Training Center (OTI) courses taken through the OSHA Training Institute (Chicago) or other OSHA Training Institute Education Centers can be used to fulfill three (3) of the courses required for a UA OTIEC certificate. Any courses not taken at UA must have been completed within three (3) years prior to the participant's official "certification enrollment date" and no later than three (3) years after this date.

All coursework must be completed within three (3) years after the official "certificate enrollment date." The official "certificate enrollment date" is the first day of the first UA class the participant wishes to count towards the Certificate.

When a participant has completed the entire certificate program, they must fill out an official "Certificate Application Form" online at [www.uaosha.ccs.ua.edu](http://www.uaosha.ccs.ua.edu). Participants must provide copies of all official OTI Course Certificates to be included in the UA OTI Certificate Program. ALL COURSES MUST BE COMPLETED WITHIN A 6 YEAR PERIOD (a maximum of 3 years prior and 3 years after the 'certificate enrollment date'). Courses cannot be used as credit toward more than one certificate program at The University of Alabama.
